Attachments: Monroe current permit.doc; Draft Permit - DTE-Monroe Plt.doc

Importance: High

Katie
Would you be able to handle the review to the Monroe Plant until Mark A. comes back. Let me know
Thanks
Andrea

Subject: Request for NPDES permit review: DTE-Monroe Plt
Importance: High

The NPDES permit for DTE-Monroe Plt has been drafted and is ready for review by EPA. Attached you will find the draft permit and current permit. All other documents are available in MiWaters in a **.zip file**.

If you need longer than 30 days to review the draft permit and supporting documentation, please notify me prior to June 28, 2021. If it is determined that changes need to be made to the draft permit, it can be revised prior to public notice.

Here's a link to Site Explorer in our database to find the application documents for this facility: [DTE-Monroe Plt • MiWaters – Water Resources Information and Forms \(state.mi.us\)](#). To locate the .zip file containing the documents associated with this request, enter the following number in the searchable **Description** field: **197638**

Please confirm receipt of this email. If you have any questions or concerns, please contact me.

Sincerely,

Christine Aiello
